

The UN-Energy Pledge

UN-Energy, working with all UN system partners and UN Country Teams, commits to helping Member States and their partners to attain these **milestones to be achieved by 2025** towards SDG 7 and net zero emissions, as they build back better from the COVID-19 pandemic:

Access

- **500 million** more people with electricity access
- **1 billion** more people with access to clean cooking solutions across the world

Transition

- **100% increase** in modern renewables capacity globally and **100% renewables-based power targets** established in 100 countries
- **3%** annual efficiency improvement in at least 50 countries across the world

Resilience

- **30 million** jobs in renewable energy and energy efficiency
- **Re-direct** fossil fuel subsidies towards clean energy and end financing for new coal power plants
- Annual global GHG emissions to be **reduced at least by one third** in 2025

Finance

- **Double** annual clean energy investment globally (relative to the current level)
- Raise energy access investment to **US\$40 billion** of which 50% is directed to the Least Developed Countries (LDCs).
